

Species Foldable

1. **Keystone species**
2. **Invasive species**
3. **Native species**
4. **Endemic species**
5. **Indicator species**
6. **Endangered species**

Directions:

1. Get a sheet of computer paper and fold it hotdog style.
2. Divide the paper into 6 sections, 1 section for each type of species listed above cut in between each sections to make flaps (be sure to only cut one side of the paper.)
3. On the **FRONT** of each flap write the name of the species
4. On the **INSIDE (part with no flaps)** write the definition for each of the different types of species listed above.
5. On the **INSIDE** of the **FRONT** flap give at least 3 examples that fall under the category of species (example: the black rhinoceros is an endangered species)
6. Be sure to put your name on the back of your foldable
